

FERPA CONSENT TO RELEASE STUDENT INFORMATION

The Family Educational Rights and Privacy Act (FERPA) seeks to guarantee both a student's right of access to education records, and the confidentiality of student information. Institutions may not disclose information contained in education records without the student's written consent except under certain conditions. A student's record may be released to parents, guardians, or other third parties by providing written authorization or consent. FERPA deals only with student related "Education records." FERPA regulations state that education records are (1) directly related ("personally identifiable") to a student and (2) maintained by the institution.

Please be aware that in order for an authorized individual to receive information regarding the students' academic record, the authorized individual must provide a state issued photo identification to verify their identity. If calling on campus the authorized individual will be required to provide the student's date of birth, last four digits of the student social security number, and the students mailing address. In addition, the authorized individual calling must provide their own personal information that can be used to validate the identity of the caller. Authorized individual is the person(s) of whom the student name below has granted the College permission to release his/her educational records information.
